ABOUT CAPP EVENTS AND TRAININGS

Centre for Advanced Professional Practices (CAPP), founded in 2005 in Dubai, UAE, focuses on delivering excellence in Dental Continuing Medical Education (CME). As an ADA C.E.R.P. Recognized Provider since 2012, CAPP specializes in CME and CPD programs. With 400,986 dental professionals having attended 1,743 CME programs, CAPP is one of the largest dental CME providers in the Middle East, working with 89.5% of the top 100 dental companies.

CAPP operates in the Middle East (UAE and Kuwait), Southeast Asia (Singapore), and Europe through partners in countries like Austria, Germany, and the UK.

ABOUT MIU UNIVERSITY

MIU University, a top institution in Egypt, is dedicated to advancing dental education through innovation, collaboration, and cutting-edge technology. By combining theoretical learning with practical experience, MIU ensures students are equipped to excel in modern dentistry. Hosting events like the Egypt CAD/CAM & Computerized Dentistry Conference, the university showcases its commitment to staying at the forefront of dental research and technological advancements.

Collaboration with leading dental experts and institutions is key to MIU's mission, enhancing both education and patient care outcomes. MIU invites students, professionals, and researchers to be part of its forward-thinking community, shaping the future of dentistry and contributing to global patient care.

ABOUT MARKEDENT

MarkeDent, established in 2008 as DTO (Dental Training Organization), has been a key player in dental marketing for over a decade. Initially focused on enhancing dentists' skills through continuous education, they have organized over 100 courses, training more than 1,500 dentists in Egypt.

In 2010, they became the Continuous Education Agent for DENTSPLY Egypt, responsible for marketing and event organization. Expanding their services in 2012, MarkeDent began offering event planning for companies, including international events like the Waveone launch. By 2014, they provided marketing and consulting for IDS, overseeing the center's training and clinic operations.

MarkeDent continues to grow, now extending services to training centers in Libya, Sudan, and the Middle East.
